Dear Supervisors:

**APPROVAL OF AMENDMENT TO EQUIPMENT MAINTENANCE AND
REPAIR SERVICES AGREEMENT WITH STERIS CORPORATION
(ALL DISTRICTS)
(3 VOTES)**

SUBJECT

Request approval of an amendment to the existing Agreement with Steris Corporation for equipment maintenance and repair services at various Department of Health Services facilities.

IT IS RECOMMENDED THAT YOUR BOARD:

1. Authorize the Director, or his designee, to execute Amendment No. 6 to Agreement H-300538 with Steris Corporation (Steris), effective upon execution, to extend the term of the Agreement for the period of July 1, 2012 through June 30, 2017, for equipment maintenance and repair services at Harbor-UCLA Medical Center (H-UCLA MC), LAC+USC Medical Center (LAC+USC MC), Olive View-UCLA Medical Center, Rancho Los Amigos National Rehabilitation Center, High Desert Multi-Service Ambulatory Care Center, Martin Luther King, Jr. Multi-Service Ambulatory Care Center, Hubert H. Humphrey Comprehensive Health Center, Edward R. Roybal Comprehensive Health Center, El Monte Comprehensive Health Center, and H. Claude Hudson Comprehensive Health Center, with an annual cost of \$398,731 and a total five-year cost of \$1,993,655 through June 30, 2017.

2. Delegate authority to the Director, or his designee, to amend the above-mentioned Agreement to increase the total maximum obligation by no more than 40 percent, for a potential annual increase of \$159,492 and a total five-

year potential increase of \$797,462 through June 30, 2017, to add equipment coming off warranty, add additional Department of Health Services' (DHS) facilities, and address emergency or unanticipated equipment maintenance and repair services.

PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION

When possible, DHS contracts with the original equipment manufacturers (OEMs) to ensure that the equipment, which often uses proprietary technology, performs in accordance with equipment specifications and complies with all accrediting and licensing agencies' requirements, including The Joint Commission. Steris is the OEM for various equipment used by DHS for infection protection and contamination control.

Approval of the first recommendation will allow the Director, or his designee, to execute an amendment to the Agreement with Steris, substantially similar to Exhibit I, for the continued provision of maintenance and repair services of sterilizers, washers, and operating tables that plays a pivotal role in infection protection and contamination control of the operating rooms.

Steris has maintained the same prices since 2005, and agreed to extend the Agreement for five years through June 30, 2017 in exchange for a minimal price increase of three percent (3%) over the current annual rates. Steris equipment helps to safeguard patients' safety in the operating rooms, as well as avoiding the additional costs and problems that result from infections.

Approval of the second recommendation will allow the Director, or his designee, to increase the maximum obligation of the Agreement up to 40 percent of the annual contract maximum, if necessary, to cover equipment coming off warranty, add additional DHS facilities, and emergency or unforeseen needed equipment repair services. In accordance with Board Policy 5.120, on May 16, 2012, DHS provided your Board with the required two-week notice of intent to request a delegation of authority in excess of 10 percent.

The Joint Commission requires facilities to cover medical equipment maintenance under a service contract. Therefore, this delegated authority is necessary to enable the Agreement to be amended timely to guarantee that the critical equipment is maintained appropriately to ensure the safety of patients, as well as to meet the requirements of The Joint Commission. Board policy generally allows delegated authority up to 10 percent. However, based on the experience of recent years with several other equipment maintenance service agreements, DHS believes that the 40 percent requested for potential increases is appropriate since adding even a few pieces of equipment for one facility may use up the entire 40 percent increase. The facilities will only request that equipment be added if services are needed and funding is available in the facility's budget. The delegated authority is necessary to enable the Agreement to be amended timely to guarantee that the essential equipment is maintained appropriately to ensure that the facilities meet the requirements of The Joint Commission and other regulatory agencies.

Implementation of Strategic Plan Goals

The recommended actions support Goal 1, Operational Effectiveness, of the County's Strategic Plan.

FISCAL IMPACT/FINANCING

The total maximum obligation for the five-year extension for equipment maintenance and repair

services is \$1,993,655. The annual obligation for each facility is identified on Attachment A.

The total potential increase under the 40 percent delegated authority for the entire five-year extension is \$797,462 and would be funded using existing resources.

Funding is included in DHS' FY 2012-13 Recommended Budget and will be requested in future fiscal years as necessary.

FACTS AND PROVISIONS/LEGAL REQUIREMENTS

Medical facilities rely on the sterilization of medical and surgical instruments as a key factor in preventing infections. DHS facilities use Steris sterilizers and processors to destroy or eliminate all forms of bacteria to prevent infection and contamination.

On June 17, 2003, your Board approved an Agreement with Steris after DHS reached the purchase limits of the County Purchasing Agent's authority for the provision of maintenance and repair services of sterilizers. Subsequent amendments extended the term through June 30, 2009.

On June 2, 2009, after Steris agreed to renew the Agreement under the same terms and conditions without an increase in rates, your Board approved an Amendment to extend the term through June 30, 2012 and increase the maximum obligation to cover the new equipment purchased for the LAC +USC MC Replacement Facility's operating rooms.

On September 14, 2010, your Board approved an amendment to increase the annual maximum obligation for adding additional equipment at H-UCLA MC and upgrading the coverage for LAC+USC MC from "labor-only" to "all-inclusive," which proved to be more cost-effective due to the large number and variety of equipment.

The Agreement contains all of your Board's required provisions. The County may terminate the Agreement with 10 days' prior written notice. DHS has determined that the Agreement is not a Proposition A agreement because the services provided are intermittent and highly specialized. Therefore, the County's Living Wage Program (County Code Charter 2.201) does not apply.

County Counsel has reviewed and approved Exhibit I as to form.

CONTRACTING PROCESS

Not applicable.

IMPACT ON CURRENT SERVICES (OR PROJECTS)

Approval of the recommendations will allow DHS to obtain ongoing critical equipment maintenance and repair services for medical facility operations.
